

A NEW MODEL FOR BUYING METAL

STEELNOW

You are here ...

Metal is crucial for what you do, but it's becoming a real challenge to find reliable sources.

In today's fast-paced economy, the old partnerships that used to work like magic may no longer cut it, especially when *your* customers are demanding more.

You're left with nothing but a Google search, diving into a vast ocean of suppliers and hoping to find the right fit.

But what if you didn't have to do all the legwork yourself?

What if there was a network out there doing the searching for you?

We Are Here ...

Since 2019, SteelNow's been on a mission to simplify metal buying. We've partnered with over 60 metal suppliers all over Texas to make your experience as smooth as possible.

Our approach cuts through the usual headaches you might face, especially if you're short on time to scour for the best prices and delivery times. With us, you won't have to waste any more time hunting high and low.

60+

Our network includes suppliers in key markets across Texas.

100s

Hundreds of products ranging from carbon steel, aluminum, stainless steel, and red metals in nearly all sizes, shapes, and forms.

We know what you're up against.

Texas is huge, and so is its metal market. Every supplier has its own mix of inventory, and the time it takes to get what you need can vary big time.

Your metal needs change all the time – different types, different amounts, and sometimes you need it, like, yesterday! So, relying on just one supplier might not always cut it.

Here is how it works with SteelNow:

YOU TELL US THE TYPE OF METAL YOU NEED, EITHER THROUGH OUR USER-FRIENDLY PLATFORM OR BY CONTACTING OUR DEDICATED TEAM DIRECTLY.

ONCE WE UNDERSTAND WHAT METAL YOU NEED, WE TAP INTO OUR NETWORK OF TRUSTED SUPPLIERS, BARGAINING FOR THE BEST PRICES AND MAKING SURE IT GETS TO YOU ON TIME.

ONCE WE FIND WHAT YOU NEED, WE'LL ARRANGE PROCUREMENT AND GET THE METAL TO YOU.

Don't call us a middle man

SteelNow operates within our network of suppliers to provide you with the best value possible.
For you, that means:

Purchasing Power

Our strength lies in our robust network of nearly 60 suppliers. This extensive network grants us significant purchasing power, enabling us to negotiate favorable terms and secure competitive rates.

Direct Access

By collaborating directly with our network of suppliers, we eliminate unnecessary intermediaries and associated markups. This allows us to offer you a transparent and cost-effective solution while leveraging the collective strength of our supplier relationships.

Competitive Pricing

Our commitment is to provide you with competitive pricing and a time-saving experience. The purchasing power we wield through our network allows us to pass on cost savings to you, ensuring that you benefit from favorable rates without compromising on quality.

Diverse Options

The advantage of working with a diverse range of suppliers means that we can source materials from various channels, optimizing for both quality and cost-effectiveness. This approach helps us tailor solutions that align with your specific needs.

Our prices are competitive, but ...

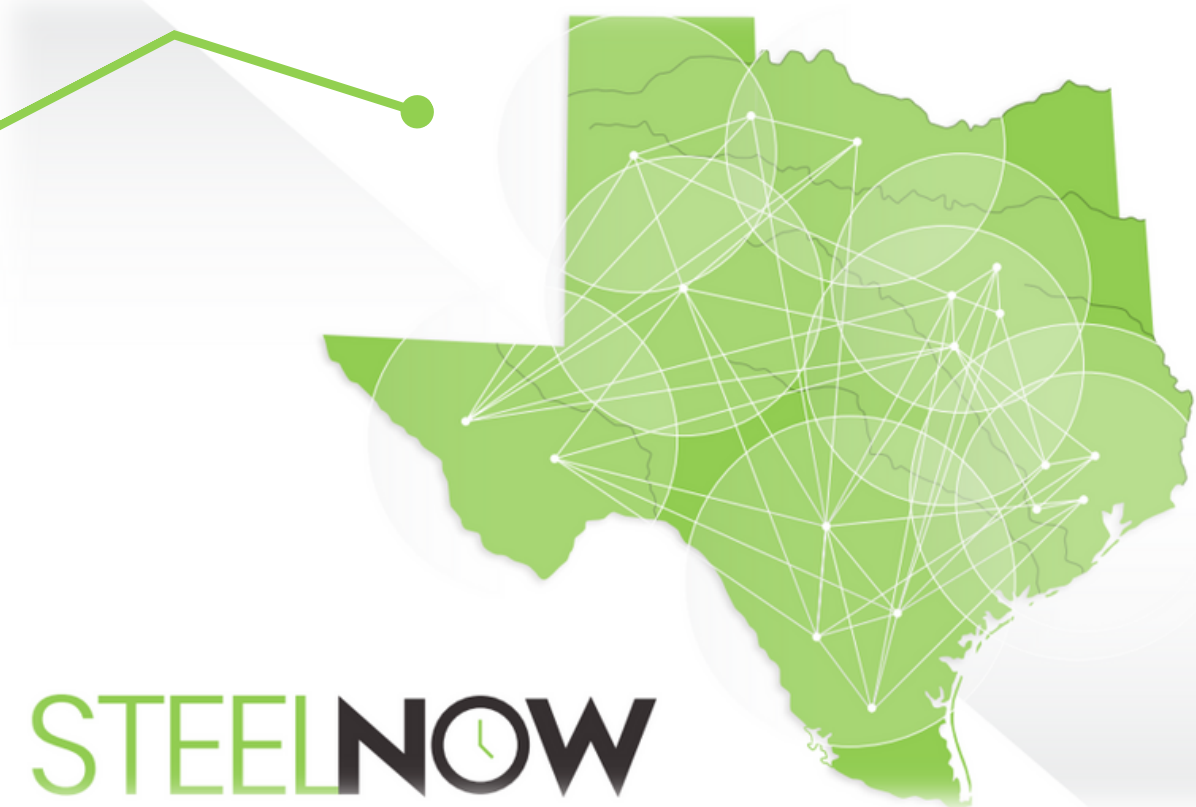

At SteelNow, we're all about keeping things clear and straightforward with our pricing. We're here to make your life easier by saving you time and hassle. While we always aim for the best prices, sometimes it can be a bit tricky.

Our main objective is making sure you don't waste precious hours hunting for the cheapest deal. We quickly find the best options for you, so you can focus on the important stuff.

Pricing matters, but we also know your time is priceless. So, we do our best to balance great rates with the time we save you. If you've got specific budget needs or preferences, just let us know, and we'll do our darnedest to sort you out.

Where are We?

SteelNow doesn't have a physical warehouse. Instead, we work with our virtual network to find and deliver direct from our suppliers to you.

We are here to help support your business as it grows and evolves. We'll even visit your facility to follow up on orders and discuss how we can better serve your needs.

Switching up your supply chain may seem daunting, but we're here to handle the heavy lifting.

It's a new way of buying metal, and one worth trying.
